Northeast Power Coordinating Council
Task Force on Infrastructure Security & Technology’s
Cyber Security Workshop

A workshop for Bulk Power System owners, operators and users that need to comply with the NERC Cyber Security Standards (CIP-002 – CIP-009), presented by NPCC’s Task Force on Infrastructure Security & Technology.

Introduction
The industry approved the Cyber Security Standards on March 24, 2006. The effective date is expected to be June 1, 2006. These permanent Standards replace the Urgent Action Cyber Security Standards (1200). The new Standards apply to more entities. The new Standards cover more assets.
