Subject: NERC Ballot Closes for Project 2015-04, Alignment of Terms, Monday, July 27, 2015

NPCC Members and Entities of NERC Registered Ballot Body,

The subject ballot closes as indicated at 8pm on July 27, 2015. NPCC's Regional Standards Committee (RSC) has reviewed all 26 of the posted terms proposed for revision. There was concern expressed by the RSC pertaining to the substitution of the term "Facility(ies)" a defined term, for "unit(s)" in the GO, GOP, TO, and TOP defined terms. NPCC is concerned that the SDT noted during their alignment activities that the term Facility(ies) needs improvement and will have to be revised. The team is submitting a SAR to do this while at the same time proposing that this term be used in four other Terms. Therefore, their recommendation will result in 5 terms (GO GOP TO TOP and Facility itself) which will be inaccurate and subject to change. NPCC is recommending that the term Facility(ies) first be improved by revision and then aligned as necessary with the NERC Rules of Procedure. NPCC will be casting separate Affirmative votes to accept 22 terms and separate Negative votes for the Terms GO, GOP, TO, and TOP, and also filing comments.

If you have any questions please contact me.
