NERC Members of the Registered Ballot Body,

The NPCC Regional Standards Committee in conjunction with the Task Force on Infrastructure Security Technology reviewed the subject ballot ending today at 8pm. The RSC failed to reach a consensus on ballot positions for all the CIP standards, however there in general was a majority recommending approval of the standards with the exception of the CIP-003. NPCC as the regional entity will be voting as indicated below and submitting comments. The NPCC RSC comments submitted to NERC for the CIP are posted at;
