Unofficial Comment Form
Project 2015-10 Single Points of Failure TPL-001

Do not use this form for submitting comments. Use the Standards Balloting and Commenting System (SBS) to submit comments on Project 2015-10 TPL-001-5 – Transmission System Planning Performance Requirements. Comments must be submitted by 8 p.m. Eastern, Monday, April 9, 2018.

Additional information is available on the project page. If you have questions, contact Standards Developer, Latrice Harkness (via email), or at (404) 446-9728.

Background Information
The SPCS and the SAMS conducted an assessment of protection system single points of failure in response to FERC Order No. 754, including analysis of data from the NERC Section 1600 Request for Data or Information. The assessment confirms the existence of a reliability risk associated with single points of failure in protection systems that warrants further action.

Additionally, the two directives from FERC Order No. 786 (p. 40 and p. 89) and updates to the MOD reference in Requirement R1, Measure M1 and the Violation Severity Levels sections have been added to the scope of the project.
Questions

1. Do you agree with the creation of the proposed P8 event?
   - [x] Yes
   - [ ] No
   Comments:

2. Do you agree with the changes to TPL-001-4 Requirement 1, Part 1.1.2, in order to meet the FERC directive in Order No. 786?
   - [x] Yes
   - [ ] No
   Comments:

3. Do you agree with the proposed implementation plan?
   - [x] Yes
   - [ ] No
   Comments:

4. Do you agree with the proposed revisions to TPL-001-4?
   - [x] Yes
   - [ ] No
   Comments:

5. Are the proposed revisions to TPL-001-4 along with the Implementation Plan a cost effective way of meeting the FERC directives in Order No. 786 and Order No. 754?
   - [x] Yes
   - [ ] No
