1040 AVE OF THE AMERICAS, NEW YORK, NY 10018 TELEPHONE (212) 840-1070 FAX (212) 302-2782

February 15<sup>th</sup>, 2019

NPCC Full and General Members:

In accordance with the FERC approved NPCC Regional Standard Processes Manual, revisions were performed for the NPCC Regional Standard PRC-006-NPCC-02 Automatic Underfrequency Load Shedding. The Standard was posted for three open process comment periods and a pre-ballot review. A ballot was then conducted which closed at 23:59PM on February 10<sup>th</sup>, 2019.

The results of the ballot were as follows:

Quorum: 80.95% of the Total Registered NPCC General and Full Members Representatives  
Approval: 76%

Requisite approval was attained for the ballot therefore a recommendation for final NPCC Regional approval will be sent to the NPCC Board of Directors for consideration at their meeting on May 1<sup>st</sup>, 2019.

Contingent upon the approval of the NPCC BOD, the proposal to approve PRC-006-NPCC-02 will be submitted to the NERC Board of Trustees for their consideration and adoption at their August 14-15, 2019 meeting. NERC and NPCC will then develop filings for the FERC and applicable provincial authorities for their review and final approval.

Voting was conducted electronically and the full record for the standard may be viewed, after signing in, at:

<https://www.npcc.org/Standards/SitePages/DevStandardDetail.aspx?DevDocumentId=122>

Thank you for your participation in the development of this important Standard to ensure the reliability objectives of NPCC.
