

NPCC Workshop Announcement: Webinar on Improving Stakeholder Coordination to Support Dynamic Analysis of Transmission and Distribution Systems

Registered Entities and Industry Participants:

With social distancing still occurring, NPCC will be holding a Virtual Workshop to improve stakeholder coordination between Transmission and Distribution entities to support dynamic analysis. The workshop emphasis will be on accurate modeling of generation, including Distributed Energy Resources (DERs).

The workshop will occur on September 17, 2020 from 8:30 AM to 11:45 AM EDT.

State/Provincial Regulators, NPCC SS-38 Load Modeling Working Group, Planning Coordinators, Distribution Providers, Distributed Energy Resource (DER) developers, and manufacturers of inverters/complementary dynamic devices have been invited to present at this workshop.

The link below can be forwarded to any individual wishing to participate.
