

NERC Event Analysis Initiative

**Meeting No. 11-NPCC Governmental/Regulatory Affairs
Advisory Group**

November 30, 2010

Event Analysis Goals

- Learning Initiative
- More Rapidly Disseminate Lessons to Be Learned to the Industry
- Consistency, Comparability, Flexibility and Timeliness
- “Bottom-up” Approach Within the Framework of the NERC Event Analysis Program

NERC Event Reporting

- Trial Period Commenced on October 25, 2010
- Appendix A of the "Electric Reliability Organization Event Analysis Process-October 1, 2010" Defines the Event Categories
- Appendix B of the "Electric Reliability Organization Event Analysis Process-October 1, 2010" Provides a Downloadable Reporting Form
- <http://www.nerc.com/filez/eawg.html>

Parallel Compliance Review

- Need to Address Potential Compliance Implications
- Registered Entities Will Be Encouraged to Establish a Liaison Between the Event Analysis and Compliance Functions Internal to the Registered Entity
- Perform a Sufficiency Review of the Reliability Standards Deemed Applicable to the Event
- Appendix G of the “Electric Reliability Organization Event Analysis Process-October 1, 2010” Suggests a Template
