

May 3, 2022

The NPCC Regional Standards Committee (RSC) will be conducting a DER/VER Forum on Thursday, May 12, 2022, from 9 AM to 12 Noon EDT.

The Forum will be focused on the impact of electric vehicle charging on the Bulk Power System including System Planning, Advanced Forecasting, and Modeling.

NPCC has confirmed speakers from Hydro Quebec, Eversource, National Grid, and NERC.

The Forum will be conducted as a WEBEX meeting, and an agenda will be finalized shortly.

The DER/VER Forum is offered at no charge and no registration is required to attend.

Through the NPCC DER/VER Forum, the RSC works to leverage the experience of our members and other stakeholders to reliably facilitate increased amounts of distributed and variable resources.

Thank you.
