

NORTHEAST POWER COORDINATING COUNCIL, INC.
1040 AVE. OF THE AMERICAS, NEW YORK, NY 10018 (212) 840-1070 FAX (212) 302-2782

May 17, 2019

The following conforming change is recommended upon approval of the revised A-10:

1) NPCC Directory#1 *Design and Operation of the Bulk Power System*:

Section 1.6.2 Applicability of NPCC Criteria:

The underlined sentence to be added to the existing applicability section of Directory#1:

*The requirements of an NPCC Directory apply only to those facilities defined as NPCC **bulk power system elements** as identified through the performance based methodology of NPCC Document A-10 “Classification of Bulk Power System Elements”, the list of which is maintained by the NPCC Task Force on System Studies and approved by the NPCC Reliability Coordinating Committee.*

*For the purpose of the application of this Directory, **bulk power system elements** are those elements on the **bulk power system** list except for those elements specifically designated as exclusions for Directory#1 applicability.*

Requirements to abide by an NPCC Directory may also reside in external tariff requirements, bilateral contracts and other agreements between facility owners and/or operators and their assigned reliability Coordinator, Planning Coordinator, Transmission Operator, Balancing Authority and/or Transmission Owner as applicable and may be enforceable through these external tariff requirements, bilateral contracts and other agreements. NPCC will not enforce compliance to the NPCC Directory requirements in this document on any entity that is not an NPCC Full Member.
