The Regional Standards Committee (RSC) Response to Comments Received in the Open Process Posting of the revised Directory Development and Revision Manual.

The RSC would like to thank those who provided comments on the proposed revisions to the NPCC Directory Development and Revision Manual which was posted from August 27, 2019 to October 11, 2019.

RSC responses to individual comments are provided below.

Comments from Vermont Transco:

Comment:

Recommend we include an explicit step where the Task Force can determine whether to accept or reject a request.

RSC Response:

Comment accepted.

Language added on Page 8 for circumstance when the Task Force rejects the request. Also, the 'New Directory' Flow Chart on Page 10 has been modified to reflect this step.

Regarding the comment on Page 11 that the TF should determine whether or not a suggested revision to the criteria is necessary or cost effective; such a determination would pre-empt the Open Process and the cost effective survey. This comment was not accepted.

Comments from the IESO:

Comment:

The IESO supports the proposed changes.

RSC Response:

Thank you for the comment.
