**Subject:** NPCC Ballot Recommendation for Project 2007-06 System Protection Coordination

NPCC Members of the NERC Registered Ballot Body,

The subject ballot closes today December 27 at 8pm.

The Regional Standards Committee has not reached a consensus ballot position on the subject standard however a number of our previous issues submitted for comment have resulted in improvement to the standard. The most notable is the increase in the amount of time allowed to perform the initial coordination study from 48 to 60 months. NPCC will be casting an **Affirmative** vote to accept the standard as the Regional Entity.

If you have any questions please contact me.

Thanks,

Guy V. Zito
