NPCC Members and Entities of the NERC Ballot Body,

The subject ballot closes on September 18<sup>th</sup> 2015 at 8pm. The project proposes to revise MOD-031-1 to address a FERC Directive through the modification of the language in Requirement R3. The revised standard clarifies certain obligations to provide data to the Regional Entity and will also address the directive to consider the compliance obligations of an applicable entity upon receipt of a data request that seeks confidential information. NPCC, as the Regional Entity supports the draft standard and the RSC Members have not expressed concern and have indicated support.

If there are any questions please contact me.

Thanks,
