Subject: NERC Ballot-Project 2010-05.1 - Protection System: Phase 1 (Misoperations) - PRC-004

NPCC Members of the NERC Registered Ballot Body,

The subject standard is currently posted for an “additional” ballot through 8pm June 27, 2014. The Regional Standards Committee has reviewed the standard and found no major issues. Protection System misoperation reporting and analysis is critical to the development of metrics and reliability. NPCC as the regional entity will be casting an Affirmative vote to accept the standard as will all RSC members who have formed their voting position.

If you have any questions please contact me.
